# Parcels Just Want to Travel Safe

Polymer Logistics offers an innovative solution for the Post & Parcel operators.

Your ideal solution, offering more space, less cost and full respect for the environment.

# Foldable Large Container

Perfect in any field

Our FLCs are the result of innovative and advanced studies. Perfect for the Post & Parcel industry, their collapsible sides, to all their extra advantage and most of all thanks to their competitive price compared to traditional container, these boxes make the difference starting a new era of sustainable collapsible containers. Stackability: All Polymer Logistics containers are full and empty, stackable and palletizable, to facilitate transport and storage. One can be arranged on the other in maximum security and stability. Tara: printed on the box. All containers are made of plastic and offer absolutely superior hygiene guarantees.

EEC standards: Accepted in all the countries of the European and extra-EEC Economic Community.
